

Sprint Planning Meeting Minutes:

Attendees: Li Jiayang, Petar Dosev, Khang Tran, Dario Muñoz, Johnkerby Joseph

Start time: 9:00pm

End time: 10:00pm

After discussion, the velocity of the team was estimated to be 31 points

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

- User Story 1: Add animation transitions: 5 points
- User Story 2: Create Personalization section: 5 points
- User story 3: Calendar with check list 5 points
- User story 4: Write documentation: 5 points
- User story 5: creating the workout log+progress/stats page/ 8 points
- User Story 6: Continue making Menu options for other sections: 3 points

The team members indicated their willingness to work on the following user stories.

- Petar Dosev
 - User Story 1: Add animation transitions
- Khang Tran
 - User Story 2: Create Personalization section
 - User Story 6: Continue making Menu options for other sections
- Li Jiayang
 - User story 4: Write documentation
- Dario Muñoz
 - User Story 3: calendar with checklist and more features
- Johnkerby Joseph
 - User story 5: Creating and adding features to the workout log+progress/stats page

We are building a fitness tracking app. It will be a web application. For now we are building an HTML page with styling.

Name: Level-up fitness

Features:

- Dashboard
- Adding workouts: Make it a big button
- Exercise statistics

- Calendar
- Checklist
- Levels, gamification
- Maybe game/RPG styling?
- Global leaderboard (not necessarily real)
